

Job Opening:

Mechanical Planner (Calculator) - Fulltime

We are looking for an enthusiastic fulltime Mechanical Planner/Calculator.

In this position you are the focal point of the various innovative projects and you have to deal with various clients. Your work varies from taking an inventory of the customer's wishes to the calculation and planning and all in between.

Most important tasks and responsibilities:

- For small projects/jobs you act as project supervisor and you take on the work yourself.
- As a main task you ensure that the agreed activities are carried out to full satisfaction.
- Together with the project leader you are both responsible for the operational monitoring and the progress of the projects.
- With the support of the engineer you make a preliminary design, take care of the calculation and make a quotation for the customer.
- You order the necessary materials, make the planning for the execution and monitor the project, you have a lot of contact with the fitters / operators, you also ensure a correct administrative handling of the work performed
- You also supply the input for various (financial) reports.

The projects you work on vary from small-scale assignments from a few days or weeks to larger projects with a duration time of several months.

Job requirement :

- At least in possession of a MBO+ training direction mechanical or installation technology, complemented by long-term experience as a project planning engineer.
- Proven experience with making calculations is an advantage.
- Excellent communication skills and you keep overview in all situations.
- You have a valid VCA-Vol certificate.
- Furthermore you are: proactive, precise, initiative, self starter, a team player, flexible, hands-on, customer-friendly and you can work according plan- and process management.

Junior candidates with an MBO or HBO educational background – mechanical engineering or installation technology – are also invited to contact us to discuss the possibilities.

We offer you a challenging job in a young and enthusiastic team.
